19th Called to visit Dr. Eagle at
Prosper's River. at 10 AM on
20th Was seized a few days previous
with vomits after having eaten some
broth wth one of the men offered him
in the kitchen. to get his stirrup. Leather
banded. had taken the broth just on
the stirrup. Proceeded part of the road
to R. Radcliffe at the Landing his
head became dizzy he lost his senses
for the time. & was relieved by vomits

his spirits are very low & the prop^r. prostration
of strength. Thirst. Difficulty of breath^s
lightness of head the anorexia refers to the
unusual sensation of roof of mouth was
for long. Redness of mouth & throat
some to pull out. vomit. spittle of Effluvia accom^p. with chills
cough in p^r. in Abdomen. frequent vomits
Bowels constipated. Motions scanty.
Incontinence of urine. The urine was white
urine scanty. Head ad Delirium
at night the symptoms. pulse. Cal & Gal.
I wrote of by Sulp. May. Bowels well of
next morn^g. left him better -

Sent for again on 25th. he been much
worse quite delirious. but on arrival
found him better. began small & frequent doses
of Cal & Valt. & St. in evⁿ. linear
sensation in small of back. as if something
run up & down. tongue moist white. Urine
scanty & red made with difficulty. slept
some last night tonight fell asleep
after blood. blood not cup^d.
remained on 27th arrived on 26th left on 28th
The Child was seized with vomits soon
after drink^s some milk brought into
the house by the same man. the

the birth but no other symptoms
 occurred to the child. The man has
 said that he ~~could~~ ^{he had it in his power to} put any one
 out of the way without it being known
 & P. was washed wheat on the
 beach. Perhaps he got cold that way
 he has grown very stout lately his
 appetite at first enormous then it
 diminished. Hoards broke out upon
 him.

I first saw Ed^g Eagle on 20th of the 4th month he was then labouring under the follow^g symptoms. ~~Quite frequent~~ Thirst
Tongue ~~covered with a white fur~~ Dyspnoea His spirits very
^{low & depressed} ~~low & depressed~~ prostration of strength, Thirst Tongue
covered with a white fur Inflammatory redness of the
Mouth & Throat, uneasy sensation ^{in the} of the palate, as if
the roof of the Mouth was going to fall ^{down} a slight
cough with constant ~~spitting~~ ^{expectoration} of phlegm frequent ^{vomiting} ~~vomiting~~
no pain in the stomach on pressure. Bowels
constipated motions scanty. Urine limpid - Dyspnoea
* Brightness of the head the pain but an uneasiness in the forehead
Pulse freq. & L

He anxiously enquired of me whether I thought he had been poisoned
from that that a week previous ^{on} the 12th ^{about midday} he went into the main
hut to get his sturnep Leather bound. it had broke on mount
his horse so go to R. Radcliff's ^{7 miles off} the man Barney Kerry was ^{alone}
in the hut & he bound the sturnep leather ash E.E. to take some
both w^h he did. he proceed on his journey he was seized with
severe distress, nausea & vomit^s &c. & he was he that he lost
his way for a time. Ed^d. sister ^{was} noticed when he returned home
in the even^g. that his eyes were red this countenance changed
appears as if he had been vexed.

Not seeing any alarm symptoms I end to delay his journey

about the poison ^{states that these symptoms might be brought on by it} Why ~~bleed~~ & Purg^s remov^d the symptoms so far as lead me to suppose he would recover in a few days, ^{altho} the vomit^s ^{way prolonged} still continued of the inflat^y affectⁿ of mouth & throat. I left on the ^{2nd} ~~morning~~

On the ^{2nd} I was again summoned to attend him Barney Perry came for me this time as he also did the 1st he left the 1st time at day break in the morning & did not arrive until 5 P.M. at my house altho' on Horseback & along the road it was noticed he manifested no uneasiness in arriving speedily he might easily have ^{reached} my residence 36 miles about 2 P.M. ^{His delay on the road} which ~~surprised~~ me exceedingly as I could not reach ^{at 8 P.M.} ~~there~~ at night - not be able to travel some part of the road in the night - This 2^d time he left the preced^d evening & arrived not until 2 P.M. the next day he was ^{on foot} ~~walking~~ ~~there~~ ~~there~~ I did ^{get} ~~reach~~ there until the next day in the afternoon. I then found he had been much worse on the 1st P.M. nights he had been quite delirious - The symptoms were ~~about~~ ^{the} same as the 1st except the chest ~~was~~ but besides this there was an irritatⁿ about the pelvis

a peculiar uneasy sensation of something running up
& down the back. and difficulty in ^{urine scanty etc} making water.
For which I bled him ^{the blood} the symptoms have subsided. The blood
in this case was not cupped ^{the humor} nor

Small repeated doses of Cal & Tart of Potash were now administered & as
the fever had subsided ^{the child} gradually improved.

On this my 2nd visit ^{the further} I had some conversation with the Family
respecting the poison cups to be in the broths and Mrs. Gard-
ner informed me that Barney Sherry one morning ^{since I was there last} milked the cows
brought the milk to her bedroom window. & placed it ^{in a tub} inside
that she gave the child some of it to drink previous to her getting
up & that it occasioned severe vomits until the middle of the day
when the child got ^{more} up quite well. I could not learn that any
other symptom but the vomits was observed. The milk had
a dirty appearance when brought into the House & the cream
did not rise properly. A ^{tin} quart jarrmikin full was put ^{aside} for
my inspection. half of it I took home with me &
have subjected it to Chem^l Investigation came to the conclusion
that it contained some trace of the preparations of Arsenic I think
the Arseniate of Potash. but whether I was not able to reduce
the metallic crust I prod^d in the tube to the state of sublimed Arsenic
& test it over again so as to be positive that it did contain the Arsenic.
but it was very much resembled the tests of lead. The Sulph^d by proper process was also of a
^{yellowish} green appearance.

I left Ed on the 20th E^d was then improv^d & on the 1st of 11^m. saw him again he was improving & able to walk about a little.

[illegible]

When I was ^{summoned} to Spring Bay to give evidence upon the case I went over to Strawberry Hill & there learnt that the B^d Sherry had some days ~~previously~~ ^{sent} given the Ser^t woman M^d Turral some spirits. It was ~~hand~~ ^{sent} ~~her~~ by another man, that his spirits made her very ill. She vomited exceedingly, and was thrown into a fit of hysteria from the description. The man ^{who waited upon her} gave of the symptoms she herself being sensible -

It was further stated that Sherry was not far from the house & said when he saw the effect prod^d by it that she had not taken enough.

From the circumstance of the Eff^t of the Drink on E. E. The Smith on M^d & the Spirits on the Ser^t I ~~think~~ am of opinion that some poisonous substance was mixed with the fluid. & the symptoms resemble ^{the effects of} more than any other poison but yet if it had been the case it was ^{more} likely the Leaven would have cost some poison, as P. S. asked ^{no objection} the Ser^t woman ^{2 or 3 times} that day whether she was making any bread she said to him her mistress was making it, now it has occurred to me that they thinking they suspected the Leaven induced her to change the Leaven for some other wh^{ch} she had done at some convenient time, at present I have always suspected she knew something of the circumstance particularly as there is a fel^d among the Prisoners show^{ing} that

They wish B.S. to be acquitted. The evidence of 2 of the Constables was remarkable in this respect and as far as I could judge quite untrue. ^{Ex. B^t deny} that he had said to J. M. that B.S. told him (p. 13) that E.E. was missing. That he had gone the road of Bream Creek to Hob's estate in his evidence that he thought he was gone or going to Hob's Town the B. Creek Road. But it was proved in Robinson's evidence that B.S. saw Ed the morning going to ~~the town~~ ^{look for the} ~~the town~~ ^{Heifer} ~~Ed~~ ^{Ed} told Robinson that he could not get the land measured wth he R^b had been ploughing. B.S. left G.E. a short time after Ed & the nearly in the same directⁿ so that they must have fell in with each other some way near Proper River. B.S. was seen at Proper Plains about 12 o'clock, 3 hrs after leave his Masters. by the Constable Bath & a short time after the by Const Simonet who stated that E.E. told him on the 5th that he did not intend to stay at Proper Bay longer than he should regain his health. That it did not agree with him.

The next circumstance w^{ch} induce me to think the Poison was Arsenic is the symptoms that occurred in E.E. illness. The usual effects of the P^o & it extend to the Stomach & altho there was no p^r.

on preasure on any pt of the Abdomen. till it did not show
 the Eng^m. did not exist in stomach the Lungs being affected
 with congestion also. Then ⁱⁿ the five days after I saw him
 congestion affecting the Pelvic & Urinary Organs. B.S. sat
 up with E.E. one or 2 nights when he was so ill I thought he not
 have admit. some more Poison than.

Altho I have seen these similar symptoms occur in cases
 of Catarrh in this Dist^{ct} and infl^m of throat ~~the~~ ^{mouth} accomp^d with
 vomits occurring it accompanied the cases of measles w^h
 ap^d in the district & the vomit & heat the time & severity of
 with afterw^{ds} were both very troublesome yet it did not agree
 altogether with E.E. symptoms I however attributed it to
 cold especially as I was told he had been wash^d wheat on
 the beach in some cold days. but this I afterw^{ds} learnt
 was 3 weeks for the time I first saw him

Then the strong symptoms in the bulk of it & ant^s
 vomit w^h cost me a great deal of time & trouble to analyse
 live in this remote dist^{ct} I had none of the requisites at hand

When the subject of Prison was first started I advised
 G.E. to take the 1st of 4th to examine the W^h & W^h W^h Barney's Baggage
 but he had no opportunity being afraid of exciting suspicion in
 B.S. mind.

14th. 1st day of week
 Called this morning to
 Dr. Burton Mayfield.

After an attack of the Piles.
 was seized with a violent pain
 recurring ^{at intervals} in the
 membranous part of the Urethra
 the pain is confined to the Spot
 very violent & heavy obliging him
 to rise up when seized with it &
 lean over the back of a chair
 when it lasts but a short time
 when gone he says he feels
 perfectly well. Urine passed in
 small q^{ts} not very high col.
 was seized with symptoms of
 cold & slight fever about three weeks
 since on return from Town & said
 it was for the shock of a heavy
 rode up on the ^{road up on the} M^o. Turn
 more he ~~was~~ ^{was} the Piles
 lasted two weeks & at the end
 of this pain commenced.
 Tongue white P. quick & hard
 Throat slight appetite good

The Buxton End

20th. This Evening was much
The pain for rem^s in same
spot felt considerable relief from
bled yesterday.

21st. This morn^g was the same
had pass^d. an uneasy night - Bled
up.

22nd -

23rd Bled again to extent of 8 or 14 oz
with good fainting.

Called at night to visit him
the Arm had bled again in the
forenoon. the ^{bandage} had fallen off.
This even^g was very faint but
for relief. took no more.

24th. This morn^g Sulp. exten^d
over abdomen applied a blister
which did not rise till the even^g.
applied another much more had
drip^d risen well it was drip^d had
removed the skin from one half of it
Aloze of Rhubarb all the he took

T Buxton Contd

25th This ev^s dr^p blister found
it discharg^d well - bowels open nat^l

26th Blister still discharg^d
says feels considerably better
has lain on side all night &
slept well (urine has been
^{or a pink sediment}
cloud^d once or twice & then the
sympt^s ap^r ^{rattled} ^{on} 25th) which
made dur^g the night is sandy & of
light colour with the pink sediment
supposes leg^s on side has prod^d ease
about kidneys has not had ^{any} pain
in walk^g w^h dur^g the night

27th Not slept so well as
previous night found relief for
with^g over warm Water. Took
2. no other Med^{ic} but a dose of
Rhub^l The weather has been
~~28th~~ very wet it has rained
in torrents all night & cont^d so
till midday when it abated a
little The Flood has been higher
than has been observed before

217

To this weather may be ~~at~~ partly
^{attributed} the languor & lassitude wh^{ch} he
has felt to day. The urine has
a cloud in it and except after
take^g the Rhub^l is of a paler
colour. This even^g the skin
was hot dry the pulse hard &
some pain in the penis & the
the piles have ^{appeared} a little -

28th Notwithstanding the ~~very~~ ^{unfa-}
vourable symptoms ^{has} ^{evening} ^{rather}
& he has ^{rather} passed a restless night
he is better this morn^g but
The Blister was dress^d this morn^g
& discharges only on the path
for w^h the skin was removed -

bowels were opened sev^l times
yesterday by the Rhub^l & today
has had one or two nat^l evacuations
Tongue cleaner & pulse softer than
yesterday - left this ~~day~~
at 3 P.M. has been detained since
ev^g of 26th by the Rain & floods.

Visit on 29th rec^d on 1st
2^d on 3^d - 4th Piles troublesome but
improves in strength -

218

No. 12³²

I beg, respectfully
to hand for thy
approval a requisition
for a supply of Meds.
to this Station, as one
has been furnished
to the Station. Since
more than 10 lbs. of
I have none but
what I furnish from
my own private
store.
As there is not
likely an opportunity
of sending the Medicine
by a Gen. vessel, if it
is put on board
one of the Private
Traders to Oyster
Bay I shall receive
it safely.

To the Colonial
Apothecary

Periodical Returns of Sick in 4th No. 1836

No times of Sick Set.	No of Sick Set.	Names	Disease.	God. Wm.					
				No Wid.	No Dow. Exp.	No Mar. Exp.
