UNIVERSITY BADGE c 1932

Small metal badge. A smaller version of the cloth badge based on the University Common Seal (pre-1937 – see UT364).

In April 1932 it was reported in *Togatus* that estimates had been received by the S.R.C. from a Melbourne firm for metal badges – ‘Mr Michells considered the Union did not need metal badges and would not be able to dispose of them. But Mr Smith’s motion that a hundred badges should be purchased at 1/6 was carried.’
