

New York

Jan 8 1855

You have I suppose heard the news  
 that Mr. Evans has made an  
 unfortunate mistake in giving  
 testimony instead of Saline  
 to a Jury, who was poisoned  
 by it. I analysed the matter  
 and the contents of the stomach  
 in presence of Dr. Can. Dill  
 and Dr. Leachman and was  
 called upon to give evidence  
 at the request. There was  
 also the appearance of gentlemen  
 there and were both much  
 surprised and they seemed  
 to be content with my evidence.
