

The best Regulations here we had
I am going to Boodle Bay taking 7000
pounds including a few hundred - It stops
within 50 miles of Adelaide with 1800
pounds so as to have them near the market
He may not join me in 8 months -
I do not like the money about
it is a stupid bit of a great loss
and disgrace. This will make the
sixth moon I have made since I have
been a sign to - Overseas and
probably an expense with weather -
I understand that Boodle Bay is a
good harbor and that the
country around it very good -
If the land is good we must be
gone and enter it as yet so that
for it is a possible life that of
great excitement prevails in
the about 10000 mines that
have been and are getting removed
probes are now set out. There
are so many others to take up by

Government it is said it took fetch
£2000 it being a bar of copper
one on it - & Yehis is very excited
about it lead & silver mine it is
said to be good. - I have no doubt
it is rich in mines -

It was lucky that I received your letter
as I was going to remitt to Thomas & Co. - he
being willing to me to remitt and I was
just on the point of going to - I got the
goods -

The Bill for £500 please to discount
for me a month before it is
due and remitt me it for my
cash will be at you before that
time. It is waiting rather long for
an answer but I suppose you were
obliged to accommodate them -

I hope we shall be able to get better
prices for our wool for the future
if not I shall endeavour to get out of
it. Ed. seems to hate sleep and I am
afraid if he was left to himself
he would neglect them
With kind love to all at Home
I remain your Obedient

Wm.
R. R. Leake
