My dear father

I have received yours of
Nov 8 - with regard to the report.
Sheep and slup ^{more} fat not and
skin - it is slender.

The Blacks are only shepherding under
experienced shepherds - such as can
manage them;

I shall send you some samples
of wool also Brown & Co -

You must view them as some of
the best - wool -
The wool is all off the slup backs
without any hair - I shall show
you about the cutting of it to
Kendall - it is a good
clip -

My dear father

I have received your kind
 letter & am glad to hear of
 your recovery to the extent.

It is not that ^{more} far out
 that it is better

that it is better

the matter is the standing water

of the ground - such a case

of the ground

I think we shall have a good
share of the meat market in
Adelaide this winter I shall
have 6000 sheep and 200 bullocks
which may give us £-3800
The wool market keeps improving
I am not ambitious for - when
Mr Mc gets his sheep which are 7000
and I shall have his I shall not have
to many in a person ought to
possess 30000 to do any good
they are not to many to manage
or cattle equivalent to it -
as yet we have been fighting
against every difficulty conquering
settling a country - but markets
had we are getting things in
better order -

I feel the effects of a bush life - ~~that~~
~~that~~ requires a person to have energy
in endurance, friction - and am sick
but if we have done our best - we
may get out of difficulties soon -
The wool is got up accordingly to sample
we never had it better and it is
classified - there are 60 bales Haggit
Wool -

You need not be afraid about the
stock being in good condition
when I can Rip old lines for
bales 50 x 60 ^{1/2} Warrags covered
and have bales 1000 ^{lb} weight
they would look well in the Hobart
Market -

With Love to all at Home. I remain
