

Mrs. Mary A. Australia
 Dec 2 1850

My dear father

We are getting on well
 with the sheep, now in the sheep
 about 3000 heads ~~are~~ have
 left the station ~~and~~ for Godlyard.
 The greatest part goes in the May Company
 from there we never get it
 down to town the Glendale
 being now has furnished us
~~and~~ had a first
 rate classing classing it.
 There is now a wool stapler
~~and~~ staying with me who
 likes the wools very much
 a very large portion is
 coming wool

The chd will be without
a hair on.

We have abundance of grass
and what little crop we
have in looks well.

but I must say this is
not a kind of corn oil
and wine, it is to new
a formation it may do for
pasture and growing wood.
I do not think I'd wish that
for O.S.L before God of the
garden he is enjoyed in
although some think

I have on Brown & Co for
£500. 10th May 1800

Shake to have at the
most shipped by the end
of June ^{or before} the which come
close up to the 400 bushels
I have grass to grow 500 -
which I mean to do up

I would recommend A. J. H. H.
Loring as a visit on Ed. H. H.
it would do him good and
cheap - he was complaining
I shall be happy to see him in
the next week if he has the opportunity
but till we have pleasure with
the ~~business~~ ^{business} is no use. ~~well~~
I shall be ~~glad to see you~~

Wish you all well in Oct.
with kind love to all

Remain yours

Antony L.
