

I have a letter for another the other
day and write with what time as
Ed is quite back the long you out.
in Dundrum to an. To Penobscot about
20 miles from Lake Umbagog I suppose a
great distance though I think the same
I find the long journey to get to the one
and over the home day though
I expect I'll work from the
on the Leysas to be about a long fact
about the same 30000 dollars and
200 for Saloons for sale - which I hope
to get 25000 for

1892/11/20
L-1-91-181

owing to labor being so scarce -
I see from Boston and N.W. they have
got \$2,700,000 in Gold - equal to
the work if not more - If the mines are
like I go on I shall find no sleep
next year but extend the Cotton
and take the fat sheep off -
John promised me to write from the
Miggins but has not done so - This
is not the man to make a fortune but
to ^{possess} it as he is as happy as those that do
I ^{can} ^{find} ^{no} other man Charles do not take
a bit to Mr. Alexander - no matter
to get them from Lancaster is
better than being idle at home
It is a poor thing if a man cannot
make it elsewhere in America -

best weather has set in with us and
the grass is fast beginning to
spring nicely —

Brown & Co have not furnished me
with my wood poles yet before
this date. We ought to have it about
now —

Just before you get this
my Mother and her folks
will be here to see
