Lake Umbagog

April 6th 1854.

My Dear Father

I hope this will find
you in health and stronger
than when I left you —
I go to Alaska in a week
overland 260 miles through
Siberia & — I am one
of the Members of the New
Instrument — Lower House & —
One of my Buildings is about
finished — an excellent building
to be in it soon —
I shall be in charge of
my stores a very important
Office with me —

He is better checked for
that than Little Riding
x x

I should think industries
will strike much in value
in 1864 - 65 Green Cross
not to start to buy much
cheaper in a few years -
then to that

best birds on the Wisconsin
one bought at from £1 to
£1-5/8 here - It took much
a dip to the sea - or more -

the lower green heart of
3 to 4 inches high - Birds and
stones looking quite green

My old manager Mr. Mc. told
I was warden - for £4000
advanced on the the time

His Chk was worth £-4000 -
I offered Ed the Run - He
would not take it -
This man was like a low man -
I have been obliged to live with
my servants - in my time -
With love to my Brothers and
Sister - Being to hear of
your health soon -

I remain
My dear Father
Your affectionate
Son
