

L.1/B.202

Yorkshire House - Gloucester
August-11-1857

My Dear Father

I am going to Adelaide
this week, via Portland where
I shall stay about two months when
I intend resigning my seat in
Council - It does not suit me
living in Adelaide - I am so
far from my station - and out of
of the way of my business -
we have a great mistake in our
Council about Privileges and a
Money bill being allowed the
Upper House should either reject

at least 1/2 way
it. The Upper House have
a tried it. It is only some smoke
Bills but it is always smoke matters
that - perhaps mistake most about
the Legislative Council had little
to do at first and I suppose they
want to show their power -
I see Mr W J Clark has bought
government land in New Zealand at
10/ of acre - a large purchase.
I should like to see them secure
the price of Land in New Zealand
though I have seen some areas
which has cost me £20,000 -
My two lines of building are nearly
finished. It is more trouble and
and expense building here than
it was with you -

Give me first the statistical
failings - an improvement to the
witnesses - I am now I see every thing
with safety - There is some comfort
in being good failings -
I have a young German Bate from England
I am getting some Cops and a stone out
the Bate out - see under L-dos -
These columns especially best - push
Black or Red as the different
houses - out of in animals but
in the human form

Wishing you an enjoyable good
death and with kind love
to my mother and sister -

I remain your
affectionate and faithful
son
H. B. Peckham
