

PETROGENESIS OF THE TASMANIAN GRANITOIDS

by

Joshua Donald Cocker B.Sc. (Hons.)

Submitted in partial fulfilment of the
requirements for the degree of
Doctor of Philosophy.

University of Tasmania

Hobart

April, 1977.

VOLUME 2TABLE OF CONTENTS

	Page
APPENDIX A. SAMPLE CATALOGUE	A1
APPENDIX B. MINERAL ANALYSIS	B1
B.1 Electron Microprobe Analysis	B1
B.2 Tables of Mineral Analyses	B7
APPENDIX C. ROCK ANALYSIS	C1
C.1 Sample Preparation	C1
C.2 X-ray Fluorescent Analysis	C1
C.3 Loss on Ignition and FeO Determination	C2
C.4 Trace Rb-Sr Determination	C2
C.5 Accuracy	C2
C.6 Precision	C3
C.7 Compilation of Chemical Analyses	C3
APPENDIX D. Rb-Sr ISOTOPIC ANALYSIS	D1
D.1 Introduction	D1
D.2 Chemical Preparation	D1
D.3 Mass Spectrometry	D2
D.4 Precision	D3
D.5 Regression Analysis	D4
APPENDIX E. REGIONAL GEOLOGY OF THE SOUTHERN FURNEAUX GROUP	E1
E.1 Introduction	E1
E.2 Mathinna Beds and Contact Metamorphism	E2
E.3 Granitoid Rock Plutons	E4
E.3.1 Introduction	E4
E.3.2 Geology and Petrography of the Garnet-Cordierite-Biotite Granites	E5
E.3.2.1 Mt. Kerford Granite	E5
E.3.2.2 Hogans Hill Granite	E7
E.3.2.3 Key Bay Granite	E8
E.3.2.4 Modder River Granite	E10
E.3.2.5 Dover River Granite	E13
E.3.2.6 Clarke Island Granite	E14
E.3.2.7 Kent Bay Granite	E15
E.3.2.8 Puncheon Point Granite	E16
E.3.3 Geology and Petrography of the Biotite Granites	E17
E.3.3.1 Rooks River Granite	E17
E.3.3.2 Corner Granite	E22
E.3.3.3 Thirsty Lagoons Granite	E23
E.3.3.4 Miscellaneous	E23

	Page
E.3.4 Geology and Petrography of the Hornblende-Biotite Granodiorites	E24
E.3.4.1 Cape Sir John Granodiorite	E24
E.3.4.2 Badger Island Granodiorite	E25
E.3.4.3 Unicorn Point Granodiorite	E26
E.3.4.4 Granite Porphyry Dykes	E26
E.4 Mafic Dykes	E27
E.5 Cainozoic Geology	E29
E.5.1 Tertiary Sediments and Basalt	E29
E.5.2 Quaternary Sediments	E29
E.6 Mineralization	E31
E.7 Summary	E33
APPENDIX F. RAKEAHUA GRANITE, STEWART ISLAND, NEW ZEALAND	F1
APPENDIX G. MINERALIZATION OF THE TASMANIAN GRANITIDS	G1
G.1 Introduction	G1
G.2 Some Aspects of the Alteration of the Biotite Granites	G2
REFERENCES	1
APPENDIX H. GEOLOGY OF THE ST. HELENS AREA	

LIST OF FIGURES

E.1	Regional geology, Southern Furneaux Group	in pocket
E.2	Rooks River Granite	in pocket
E.3	Geology of Badger, Mt. Chappell and Goose Islands	in pocket

LIST OF TABLES

	Page	
B.1	Energy dispersive precision for garnet (43252)	B2
B.2	Energy dispersive precision for biotite (43178)	B3
B.3	Garnet and biotite compositions, sample 43103	B4
B.4	Garnet composition	B9
B.5	Average garnet composition	B75
B.6	Biotite composition	B89
B.7	Average biotite composition	B124
B.8	Composition of biotite replacing garnet	B138
B.9	Cordierite composition	B149
B.10	Plagioclase composition	B160
B.11	K-feldspar, myrmekite composition	B171
B.12	Andalusite composition	B176
B.13	Tourmaline	B180
B.14	Ilmenite (rutile) composition	B183
C.1	Chemical analyses and CIPW (weight) norms for garnet-cordierite-biotite granitoids	C4
C.2	XRF analytical conditions	C11
C.3	Preferred values for standards used in XRF analysis	C12
C.4	Overall precision of XRF analysis	C12
