My dear Judge Clark

I have just returned from Cuba & have the pleasure of finding your letter & your article on "Natural Rights." I am very much obliged for your remembering us in this way, & am sending the paper to the Editors of the Annals, where I hope it may soon appear.

My trip to Cuba was full of interest. That is one of the finest bits of country in the world, & at this season the climate is quite bearable - or I might even say enjoyable. I observed also that our officers & men all seemed to enjoy excellent health after one or two summers they have passed there.

STUART WOOD,  
400 CHESTNUT STREET.

The political problem is a very  
tangled one & it is hard to see what  
the outcome may be. Philadelphia, mo. We are ~~not~~  
pledged to accord a free government  
to Cuba & not to use the results of  
the war for purposes of aggrandizement.  
We are also pledged to protect  
life & property on the island. Most  
of the responsible people there  
think these pledges are incompatible.  
Probably the thing will have to  
work itself out gradually & tentatively.  
Only the burdens of Imperialism are  
heavy & for one I would gladly be  
rid of them, & yet the responsibility  
is on us & must be borne by us, as best  
we may bear it.

With best wishes

Yours very truly
