POWER POLITICS AND PROGRESS:
THE EVOLUTION OF TASMANIA'S
HYDRO-ELECTRIC COMMISSION
1914-1930.

by

SIMON HARRIS

Submitted in partial fulfilment
of requirements for the degree
of Bachelor of Arts with
Honours at the University of
Tasmania, Hobart 1-6-1986.
This thesis contains no material which has been accepted for the award of any other degree or award in any university, and to the best of this candidate's knowledge and belief the thesis contains no copy or paraphrase of material previously published or written by another person except when due reference is made in the text of this thesis.

Simon J Harris
ACKNOWLEDGEMENTS

In so many ways so many people have helped me to produce this thesis that it is impossible to name them all here. However some collaboration bears especial mention. First I wish to express my appreciation to Michael Roe for his inspiring supervision and sapient criticism. Thanks also to Penny and Derek Rowlands and Rosemary Van der Hek for reading my drafts. Ann Evans and Dennis McDonald have worked diligently 'legibilising' my scrawl. Finally may I thank Angela Griffiths for putting up with a mad writer's foibles.
ABBREVIATIONS.

EZ : The Electrolytic Zinc Company of Australia.
