

# ROOT MATTERS IN SOCIAL AND ECONOMIC PROBLEMS.

## ADDENDA ET CORRIGENDA.

*Average Rate of Wages.* At page 25 the average rate is based upon all kinds of breadwinners; at page 48 the average rate is based upon the wages of *male adults* of about 12 selected occupations.

*Definition of Certain Terms Employed.*

*Wants.* This term is used in a double sense throughout the various chapters: (1) the term is often used in its more legitimate sense, viz., *appetites, cravings, or desires*; (2) the term, however, is also employed less correctly in the sense of the *things, objects, or desiderata* which satisfy cravings. It is used in the latter sense when such terms as the following are used:—"creation of wants," "wants in exchange," "aggregate of primary wants," "wants essential to life," "wants essential to comfort," "production of wants," "struggle for wants," "supply of wants," etc. It is used in the former sense in the following phrases:—"wants are interminable," "satisfaction of wants," "sufficiency for the wants of all," etc. On reconsideration it would, perhaps, have been an improvement if the term *wants* had been restricted to its more legitimate use, as indicating cravings and desires, or lacks; and that the term *satisfactions* should have been substituted where the things *wanted* are concerned.
