

Dr Mauleay, a regular Graduate in Medicine, respectfully requests this liberty to mention, that he has settled at Bothwell, and will be happy to give his advice, and assistance in relieving the Complaints of the afflicted, in every case of Disease, and in Midwifery, in which he has had much successful practice. His Fees will be found very moderate; and he has a constant supply of Medicines for sale. —

Mrs Mauleay, Educated at the first Boarding School in Dublin, will open one, in a few days, for Young Ladies, where she will bestow the most unremitting attention to their Morals, as well as in Teaching them every branch of useful, and ornamental Education, on the most reasonable terms. —

10 August 1843.
