Ringings  
in the New  
Year. -

The New Year was rung in this year with rather less noise than the old year '58; but still there was plenty; the Bells of all the ships being rung like mad; & sailors & Marines from the "His" (H.M. Man of War at present in the harbour) scambling the streets with fiddle, flute &c &c, this combined with shouting, yelling, & other noises would almost make a stranger think that the whole town had taken leave of its senses. Some beautiful blue-lights & rockets were let off from the "Harrowby" & "Aurora Australis" the blue lights had a beautiful effect in lighting up the shipping.

Holiday.

Having asked a holiday to go with Father to spend the day at Barlow's, & he not being able to go, I employed my time nearly all the day in making a tripod stand for my camera. I gave Liz a little Book(?) for her birthday.

Liz's Birthd.

Father ill

Father has been very unwell for several days, he had the influenza & the Doctor says that he has overworked himself & that has brought on debility; he has been in bed all to day.

Heat.

Yesterday & to day have been insufferably hot, like a furnace, & with a hot wind blowing the sun scorches you dreadfully, I got a felt waterwaik (1/6) which is great deal better than a cap.

Bush Fires

The Weather for the last few days has been very hot and 2 or 3 Bush Fires have broken out, one over at the opposite side of the river on South Arm, & another on the hills to the S.E. end of Mt. Wellington. To day has however been cooler, as it has been cloudy.

Father.

I am sorry to have to record Father's continued indisposition, although a little better to day he has not been able to leave the house, to attend meeting or anything else.

Box from  
York.

By the "William & Jane" about a fortnight ago (I think on the 13<sup>th</sup> ult) I received the long expected parcel from the Bachhouses of York; it contained a Stereoscope & 38 portraits & views for it, taken chiefly by Tom. B., I suppose from the whole of them; The "Leisure Hour" for 1852-3-4-5 & 7 from Eliz. B.; "Livingstone's Travels" from Sarah B.; some pressing paper for plants; & shells, tracts & a few numbers of the Journal of the Photographic Society, the latter from C. B.

The Derwentwater has been in a week or more now, & is not alongside yet. It is a shame: the Agents Mr. Pherson would soon call out if it was any one else's vessel, in which they had goods, but as N.P.C. says, "now the boat's on the other leg."

Holiday

Regatta day, & a general holiday as usual. The regatta went off very well. Fine day, sunny with a moderate southerly breeze.

Ferns

We started at 6 o'clock AM. with a horse & dray, & 9 men including Mich. Geona & the drayman to get tree ferns at Fern Tree Valley. Our party consisted of, Uncle Robt. Mathew, Commander; myself, the director of the fern procuring; & George, Robert & Ridley & Cousins Robert & Francis.

We first of all went to the old valley, & cut down one, which however we did not take; as Uncle had found two beauties further up & more to the right, on the side of a valley beyond; just below the hill where we found tree ferns a couple of years ago, & where we could get the cart much nearer. We got these 2 measuring 12 ft 6 & 13 ft. & in the afternoon after a very hard job we got another 14 ft from a part a good deal higher up.

We got them down in the cart safely, after hard work holding on in going down the hills, at about 6 o'clock & then by getting over Woods gate they being out. & unscrambling the logs, we got them safely deposited about 6.

A meeting of the Executive committee  
of the Savings Bank was held  
this morning at  $\frac{1}{2}$  past 9 at which  
they ordered a letter of condolence  
to be sent to Mother, they appointed  
Morris, Actuary £600; Campbell  
Assistant Cashier & Accountant £500 & made me  
Assistant Cashier & Accountant at  
the handsome salary of £200, they  
also ordered my late dear fathers  
salary to be paid to the end of the  
half year ending this month &  
gave us the house certain till  
the 1<sup>st</sup> of June. J. O. B. came  
down a little before 10 on purpose  
to go to the meeting to support my  
cause; & came down to the office  
after & told me & then I bade them  
all good-bye & left. Uncle Robert  
& Dr. Agnew are going to be sureties  
for me for £500. Morris & Campbell  
having both been very kind, offering  
to help me in any way they can  
& it was very much if not entirely  
through them that I have got  
the situation. I ought to be  
very thankful to God for all his mercies  
& also be grateful to all of them  
for their kindness.

Half Quarter Day

Act 17<sup>75</sup> 3<sup>Mos</sup>  $\frac{3}{4}$  Saving Bank of Macquaries? &

It is said that E. C. Chapman's friends are very wroth at my being put into the bank instead of him.

Of course as far as fitness goes there is no comparison, and ~~because~~ I know that they put me in, solely on my dear father's account.

I must try & do my best & learn as quickly as possible.

At present I do not take the cash but post the Ledgers & so on; & Morris & Campbell both do some of my work at present.

I am very busy at present sorting papers &c belonging to my late dear father, ~~of course~~ I shall have a great deal to do connected with the affairs as I know more about it, ~~of course~~, than Uncle Roberts who is the principal executor, Agnew acting but not doing the work as Uncle does, as of course it is more pleasant to us to have one of our own family looking into the papers.

A squally day, blowing hard with squalls of rain. Mett with some difficulty in getting the children to meeting against the wind, but got there all right, at about 10 minutes late after Josephs cap leading George a chase for a couple of hundred yards. In coming back we got rather wet & had to run for it. Went again in the afternoon & were about 10 minutes late. Rob. Mather & brother Rob. down to tea. Reading Todd's Students Guide during the evening. Resolved to try again & begin to night to live more to a purpose, may I be helped to keep this resolution.

Elect Cable to Victoria

They have made a regular mess of the cable, it has been delayed some months, owing to the Omes being obliged to put back to England through a storm, & was in laying it, the boatmen have thrown it out in coils in landing the end at the N. end of Kings C<sup>pt</sup>. the consequence is some miles are broken into small pieces. They will have to grapple for the end, & if they cannot get it in that way, will have to under-run it from Cape Otway, a difficult & tedious job. All the rest of the cable is perfect.

A soaking wet day & blowing pretty strong. It rained almost incessantly all day. I am glad I called as I was rather fidgetty about it.

War in Italy

I have not mentioned the progress of the war in Italy, the battle of Magenta, where the Austrians were defeated with great loss, & the entry of the French & Sardinian sovereigns into Milan. The Austrian general Gyulai shaw, I believe, been recalled as he has not done well. They are believed to be retreating on their strong holds, & it is thought that this was their intention from the first, & to act on the defensive.
