SURVEYS & MEASUREMENTS
by
Thomas Scott
Assistant Surveyor Gen^l of Lands in the Island

MOST RESPECTFULLY DEDICATED TO HIS HONOR
Wm. Sorell Esq^r
Lieut. Governor of Van Diemen's Land &c. &c. &c.

Scale of British Statute Miles 69 to a Degree

It was the intention of the COLONIAL GOVERNMENT to make a Survey of the North Western parts of VAN DIEMENS LAND in the Summer between 1823 and 1824, say the months of November, December and January — A vessel was also to be dispatched to cooperate with the Land Expedition on that Part of the Coast —

The Tallying party from Macquarie Harbour to the Derwent is not yet practicable. Several of the rangers, contrary to the later place of attempting to reach the Derwent have died on the road, another party after having killed one of their comrades to preserve their own lives were obliged to return and give themselves up in the common jail.

The South Eastern parts of Van Diemen's Land received the name from Cap^t Able Jansen, a Dutchman who discovered it Nov^r 24th 1642. Since that time it has been circumnavigated by a small Ship called the Norfolk, commanded by Lieut. M. Broucker in the Year 1792. It is now found to be 80 leagues distant from any known part of New Holland, and contains something more than 10000 square Miles of surface. It is under the Jurisdiction of the Gov^r of New South Wales.
