

L. 1/B. 482

Sumner notes

31st May 1836

My Dear Sir,

As Capt. A - is going to Campbell's Town and will perhaps see you, - I am induced to trouble you with a few lines as to the best course, I should pursue in regard to furnishing August with clothes &c. - The instructions I received from Mr. Pakden on the subject were, that I was to purchase whatever I considered requisite for him; with a due regard to economy, and apply to you for payment; as you would hold the funds for defraying his expences in Mr O.'s absence. - He is now in immediate want, of a Suit of Cloth clothes, for best, and also a Suit of Moluskin, or something equally strong; for common wear. -

You will oblige me, by saying whether

whether you will procure them for him
or wish me to do so. —

Mr Bakden also particularly
requested, (as Mr Jacksons wish) that we
would procure a Tutor for him, or
send him to a respectable school, where
he would be properly instructed in the
useful branches, of an English education
and that without delay. — We cannot
get a proper person to come here to
instruct him; We therefore wait your
approval to send him to school, and
from the perfect knowledge we have
of the boys disposition, think, that
Mr Ellistons would be the most
suitable for him. —

Hoping Mr Lake and all your family
are quite well, Capt. H. writes with
me in kind respects to them, and by

To remain Your very truly

Thos Lake Esq^r
