Private

Sir,

It has just occurred to me that I had better send Dr. Story's bill in duplicate - on one part you will find the ordinary Attestation. The other, pencilled over, is intended to be signed for not by the Doctor, as his sight is so very much impaired. There is no occasion whatever to complete both - you can determine which to adopt, and put the other behind the fire - if the Doctor is at all anxious as to this inaccuracy, please...
Consider this note as marked, private. I would rather this #2 will complete, but we must not rely on the family over this small matter.

F. H. Grogan

Dear J. D. Cotton Edge
