

Kelso 19/3/64

My Dear Friend

Joseph Benson Mather

I duly received thy letter & handed the enclosure to Francis, for he & his Uncle Joseph arrived soon after I got home from the Point

I do not know anything about the case of Hardware by the Harrowby, I have no goods ordered except those from S. H. Ransome & there has not been sufficient time even for an answer to my letter, The Package might be from Thomas Cotton, but a letter was received from him by the last mail & he makes no mention of it.

and I don't know that Father  
has ordered anything from  
home, so there must be some  
mistake about it.

I was very sorry some of the  
young people from Kelvedon  
went to the yearly meeting  
It seems as if there was so  
spare time; so much to do & so few  
hands to do it, & yet when the time  
was altered for their convenience it  
causes regret that they could not attend  
Mother sends her love & will be obliged  
by thy sending 2 yards similar to pattern  
& a pair of Doekin Trowsers for Edward  
observing that they are large enough par-  
ticularly in the Seat. They are to be of a  
dark colour - Mother sends her love to  
Anna & says she did not answer her letter  
she did not call the little note a letter  
I suppose my Trowsers are in the vessel. I think  
I requested a pair of gloves to be sent also - The  
Hingston has not yet arrived - I desire  
my kind love to thyself & the dear children  
Thy sincere friend  
George F. Storey
