

Brook Lodge Feb: 7th
1865

J^r Storey

Dear Sir,

I ought to have answered yours of February 18th before, I have been so busy harvesting & thrashing that I do not seem to have had a moment to write in your letter was the first intimation I had ^{that} the Sewing Machine had come, I went to Swansea last Monday week and brought it up I put it together pretty well but they did not send the slightest instructions concerning it. Madeline has done a little work with it and will, I think, by perseverance be able

To get on very well, Mrs Henry
Cotton has promised to come and
give her a lesson. I think that
the Machine is in every way good
and complete. Madeline joins me
in sincere thanks to you for all the
trouble you have taken and all
your kindness in getting the Machine
it is more expensive than I at first
expected but I always like to get
Machines good which cannot be
done without cost. I enclose a
Cheque for $\pounds 5.12$ which with the
 $\pounds 13$ before will make $\pounds 18.12$ the
remainder you will please let
me know when you can -
your Mining Machine I will
ask Mrs Cotton to take to the

Grange, if she brings a vehicle
up, this week.

W^m B. unites with me best respects
to the Kelvedon circle.

I am
sincerely yours
G. P. Boulbee

Please excuse this hasty note,
for it is getting late G. P. B.
