I ought to have
written to you, dear
George, long before
this, to acknowledge
the safe arrival
of the sedge, grass
and waterplants &
which you so kindly
sourced this year.
I was so much
harrassed in my
department, that
I could really not
gain the time for
any expressing both.

C7

miral matters, this
being the planting
season and my
time much occu-
pied, especially since
the Department
became so much
disorganized.

Your collection
contains the rare
Didymotheca that
I did, & Hooker,

besides, new *Cara-*
lites for *Peruvia-*

(3812) *carpus pinnifolius*
Propont., *Caustis* (983) ^{Plan. cel.}

pentandra N. Br.,
Syringophanum Lab. 83-t332
Heroclelea rariflora
& Hook., and a few

attire. So I hope
you will feel suff-
ficiently encouraged
to watch the plants
around you.

Let me hope your
health is firm &
your mind cheer-
ful.

With best regards
Frederic Mueller.

I hope you got
the cork bark & so
safely through Mr
Shaw's mediation

Dr. Mueller
