

William's hat  
Garden 29/3/70

Let me hope, dear  
Dorothy, that you  
returned safely to  
your patriarchal home,  
and that in the  
rural tranquillity of  
your salubrious  
countryside you <sup>continue</sup> ~~are~~ strong  
and happy.

Should you pass  
any sedges and  
reeds and grasses,  
pray pick them all  
up for me, as I have  
to work on them this  
winter for the flora  
(the 7<sup>th</sup> vol.)

Many of the Fab  
manion Glumareal  
are not yet at all  
well understood.

If I can send any  
thing from here to  
you, it will be done  
with very much gra-  
tification.

Yours respectful

Judson M. Miller
