Hobart. 19 April 1891
Sunday 9.10 PM.

Beloved Ann,

It was delightful to read your two letters of 18th March.

Yesterday, of course the post must have arrived the previous mail. Your letter to Eda was very cheerful and interesting. Your account to me of the weather did not add much information. Sam still talked of raised about your arrangements but he seems better on the alteration for you to close another ledger, through the money question is a difficult one, I will have to borrow to pay for the extra year. Perhaps fortunes will improve with improving times. Yes, presently shows his improvement I am glad to say, though I am low about any returning thanks which at present look ill.
Except to the Clarke's.

Trinity they came up from Lottah (for the last time) one Friday, now is to be married to July.

Tuesday or Thursday, I don't much, it is a particularly clear but, I don't say it may, but, there is, the last night, I've had quite a respectable day, quite in the old state. All the Clarke family, full of talk.

CP: Virginia, Beatrice, Ethel, Edith, Helen; Maine, Mrs. Ella Morton. It is very pleasant, to have the girls back. Lily is quite, almost, a bit of blonding almost, red, almost, a bit of blue. She is all very, only, the opinion of the sight. Is quite. Quite another year.

Lily out here to dine too, is quite, also the Hay, John, the town, of mentioned before.

P. Howell. Today was our school anniversary. The collection of their church amounted to $20.

This has been a lovely, bright, cool autumn day, without a cloud in the sky. I always think that we get the most pleasant weather in autumn. October, clear and cool, I agree, please. The week has been pleasant, the

weather, really, to hear of the bright and y 'alld via March. The letters came about the weather are said, and, hope you'll escape. Take care of yourself. Your uncle is going to a luncheon

for eating, it is, I hope you'll escape. Take care of yourself, and, I agree, please. I would have been well worth while.
Correspondence should have been recollected. I think your idea has no reference to the letter you
received.

This scrawl is hardly worth reading, but I have an idea to suggest; I think Mellott has
thrown all ideas out of my head. Shall suggest getting a book & copying something. However,
all three have written you; won't be in bad luck. The
Mother sends her social blessing; her deepest love. And
she will try sometime to write you a few lines.

Reverend was here today. He is growing more as
showing as did. I have more hopes of him being a credit to
the family, than of any of the rest of the nephews.

Well, not as fairly well.
He has a home now, friend, backwards or forwards to
Fleming. Your messenger to
there are already, if especial
try to write a letter or two to
done of your friends to have one
written to you, and a few lines,
what can abbreviate the form?
Letters of mine to mother ere.
By the way, did I tell you
that Russell, Dickson has
failed - liabilities $17,000.
A set to go. His severe bank
backing. I have let his mother
in. He has paid her as much
for years.

Encclere 2° of Exchequer for
last draft. You never told me
why you wrote so urgently
for 2° of Exchequer of a former
draft. Did you lose the first?

It is no use. I can write
any more. Sounds, Cayman,
take care of yourself, beloved.
It would be do for you to be
laid up with influence in
your lodgings. If was a cat
living at No. 18, near Park.
But, there, it would be too
dreaded. I only hopes that
the plague is not severe.

I am sure there are now
more details. Cannot to give
you, but they must touch
plague regains to 1800, now
and all the Los Colores.
Specif, sympathize. Letter
heard from. Letter of
Corrigs Vignaud. It is better
failing. But it
God Bless you.

T. 22 Oct.
