Robert, 13 Dec. 1891
Sunday night

Dear Ben,

I have been hard at work
all the evening trying to
select a suitable
picture for the sketch
(prepared for Old Hall)
but it is now very late. However,
Buston is setting respectable
in the kitchen room. (Writing with
her spectacles on, like myself),
writing out a letter to you, so
that you will get the correct
Annie's name and other
details.

Moreover, you wrote to me, shall
write in the case of your visit
to Chesterfield? Therefore you
don't really deserve a long one in
right. I suppose, when you are
settled in Paris, you will notice
Arthur Clarke's letter to his father,
also, what more about your Kabar
Yours very to the place. I am
Glad you are there. With kindest
I hope you will see them again.

Also the Dean in H B Randby.

Poppy Clarke is always counting to hear about the Armady, the boys greatly attached to them.

Family Alfred night I believe turning up here again. Israel Ay.

H on Sat & Sun with them under Cottars Berard six days one of the heaviest showers in equal volume have been six for a long time. They are coming up to see the weather, Wednesdays too. They are staying at Hulvery's. Annie is away in Melbourne with Eva. She is said she must have a change. So the Hobsons are in charge. There are thirty of building these new houses on the Grange Road where Frank has bought a piece of land.

Hulvery will have to be sold. It is too expensive. I suppose it will have to be cut up into allotments which will be a pet.
And is beginning to grow on, the work as expected.

Mr. Nicholas Case, in which H. Bosten has gone mad, is over. The Judges dismissed the case without hearing the defence, so that Mr. H. Nicholas, his family (Alice Sargent) will keep the prospects. Expect the costs she will have to pay will be something like £2,000, for the plaintiff, her opponent, has no money. Suppose old Mr. Nicholas will be very cross. There is a very strong opinion against Robinson for bringing such a rotten suit.

The A.A.A.D. meets on 7th May. It's a relief to be a success. There are about 700 members here, who have sent in their names (including ladies of 57) about 250 members present.
Other Colonies have given notice that they intend to be present. Over 200 papers are to be read. The hearings are to be held in the Town Hall & Museum, where they will be able actually to sit about a dozen rooms for the different sections. There are to be trips to Fort Moneypenny, Castle Clare, other places. Alexander the Great is in the seventh heaven. Br. W. B. has arrived this week. Locusts by the hundreds. The Governor had to receive them in the absence of the Governor. Will show them as long as they are going to stay. The Vice Regals are staying in Kincaster for a while. After, during the exhibition.

Well, my beloved Eunice. Conclude: Have to write to Choker. Has copied me a
A lot of things for the lecture. I mean pictures to make lantern slides - and I am going to ask him to stay here during the R.A.M. He gave me a broad hint in his last letter. However, he really has been very good and taken a lot of trouble.

Have the West Coast Shop all done up ready to send, but have been wanting tell you got settled. Should get all the photos he wanted. If you don't tell me that you do, I won't lend you any more. I do hope you Miss [name] will get on well together. If that you will find Paris tolerable. Also don't get influenza about a tickling.
