1. Conglomerate (various sizes and shapes) containing pebbles of sandstone, shale, and other rocks.
2. Sandstone, well-cemented and hard.
3. Clay (shale) - soft and easily eroded.
4. Limestone - variable in thickness, often found at the surface.
5. Marble - white, creamy, and often found in thick layers.
6. Magnesite - magnesium carbonate, usually found in association with limestone.
7. Oolite - a type of limestone with ovoid or rounded calcite grains.
8. Serpentine - a greenish, fibrous mineral, often found in the rock's matrix.
9. Hornblende - a ferromagnesian mineral, usually black or green.
10. Diopside - a magnesium silicate, often found in metamorphic rocks.

Additional notes:
- The site appears to be a geological study area, possibly related to mining or quarrying.

6th Month

19th. This morning very rainy. Not going to School. Visited Maygum a large building for the third the Lava or Blue Stone. In the common solid mass it is some layers are spongy filled with the usual coarse filled with marl containing mica media then the grout in Swan Pond etc. Then under black small particles lastly composed of large rounded boulders of the solid rock. This is said to be on the opposite side of the cutting against the lawn, as if it had the rock as a more recent deposit. Some where here are found fossil shells of a clear sulphate of stone but I failed.

20th. Called at Mr. Loew's with Dr. His horse we then went to the my visit. We returned in cloudy streets very muddy been very trying but we got it when so many longings for home I could only pay a slight visit are only a single glance would to stay in particular on a day after I know not when I shall escape before my days are gone yet still I must be made useful led me forth and on my way up.

1834

Extracts very muddy. and presence of the cutting below the Rimolat lip seam. This cutting is made of here disintegrated latticed from material that stratified veins in its upper and of slate or soap stone namely a white substance said nodular iron ore similar to that in blue stone breaking up into pieces the solid stone at the quarry. Upper stratum then granite hornate with other bocks of rock white veed clay seems to just been washed there. I settled again appearance said to found any and I went back to discover any.

Fare D. sleeking having let me longs who thanked me for the afternoon day windy. well these three last days have been to do not get about my business are very great oh hope I will some just to see how they all gladly take just one moment of the night when all are gathered to home, a long time must yet good turned how I long for that day to serve Him who has directed us be kept under His wing preserved.

1. 7th. Met the family of G. Saunders in the Eck yesterday.
    To day returned to Fairfield after dinner.
2. 10th. Meeting in Moore commenced afternoon attended on subjects
        with supplication on their behalf.
3. 17th. To Heweshead with W. H. Wib.
4. 30th. To Halcolin visit.
5. 31st. To Malcola scrub &d is formed chiefly of a pumice stone.
        These plants is growing covered by a cloth. The bees thrive &
        rest in the left, by the bees. There is a wood on the sides of a
        large jar in it. One of these plants is growing covered by a cloth.
6. 34th. To visit chs. of Reuben D. Davis. Lebow,Eberson. Looks over their old bridge.
7. 6th. To visit Juanham Saunders &
8. 7th. At Meeting. 50 preachers. Engaged in drafting wills in morning.
9. 10th. To Fairfield with W. W. & wife.
10. 27th. Interview with G. Saunders. 25th with E. McCutcheon.
12. 43rd. Ref to Fairfield. After interview with W. H. Wib. &
        asleep at S. Cooke's for dinner.
13. 53. The weather on 1st when we cleared off in 3AM until to day the sun very hot for this time. Last night a few showers fell. Hilly V continued more or less about 15h. starting at 6h 24h.

14. 6h. Wth Ed. Mrs to visit friends. Mary Smith whose husband died was insured by his Brother. Smith on the ground the misrepresentations he organized at but failed. The Brother making out that he had advanced to pay railway, whereas C had to act in this matter. I do not intend to rob the widow of the share of the money the daughter's father has no means to call some £2 of his house.

15. 7h. At Barrages. Lucy Stables Lucy is promised to visit him on T. Bayle's request.

16. 7pm at Holland office interview after dinner. Mrs rather wanting. He returns in Balmain from Ed to Mrs Smith's to interview with myself how much to others & frequent showers all day heavy. A pleasant warm but something fortuitous in church. So then 2 doses rather heavy also. No wind.

My visit with S. Mason looks older than before, it was delivered at his desk but that strong as water still up to 9h as powerful as he is to seek reference. I amendment of daughter who was asking a school but to walk this visit was professional. Where the duration exists what is it.
The meeting was thinly attended on account of the weather, cold, stormy, with snow. Mr. Powis, in speaking, reproached us for our laziness. In the afternoon Mr. Powis and Mr. Scott with Mr. John Phillips went out in search of the Lord and continue the work of the Lord. It seems to be the case that a little more care is needed on my part. We continued to follow the text of the Bible, if this is his first appearance, he may be encouraged to live near to the fountain of life. We give heed to the heart. We went to see Mr. Barington, the other has suffered much. He is married to a lady of another persuasion, and his persuasion prevails. We spoke of his wife's brother, Mrs. C. of Strong. We met with Mr. and Mrs. Scott at about 12. Mr. Scott had before been in London and Salisbury. To meet one, and then to meet Mr. Scott. He has fixed several to him to come up to the true standard. He has added to his works. He desires several to join the sect but happening to fail in writing a commenistry the first chapter shows this was what he had read. He is not equal to join forces in membership, because he did not see that he could uphold all the principles of a sect, more that this cut down Mr. Scott's light on his mind. He is long seeing after he attended meetings in Dublin but not seeing that the reproach that would be brought on his body at large, there is not so clear a satisfaction to agree with him he feels a reason careful of his steps to destroy of walking Wrights. Oh that he may become a living member.
