

world. The Ladies seem  
to be throwing a little letter  
lately. The last purse they had  
is not much good. I think  
but they can have been  
been taken home prepared  
good & it was much better  
they were sent to the  
they have been selected  
the they are better & more  
I had got the coffee pot  
that is for making coffee the  
I think then there will be  
of having the coffee clear as  
one & if answers are sent  
It is nearly 4 feet 10 I can  
to write very small love & good  
any more than I can

bers of the family away. Never  
mind, you will soon have James  
with you again, & I will send  
you some good sound advice for  
you to follow while I am still  
obliged to be absent from you.

James seems to be very contented  
here in Inelbovone, the only thing  
about him that grieves me is  
that I think he keeps up his  
home practice of going to bed late.  
He looks better than when he came  
over. He has been doing the grand  
to day lunching out at Looate  
at Mrs Joe Clark's. He is going up  
to Bainsdale on the Tupper land  
line with Mr. Bastow, & on Friday  
he wants me to go with him up  
to Sandhurst & see Isaac Carno.  
He should go up on Friday afternoon  
& come back on Saturday night
