

8th - moth - 1868 -

HOLGATE HOUSE,

N^o YORK.

My beloved father,

I do not remember whether

I have received or not two letters

from thee, since I last wrote,

nevertheless I will commence one

today & thank thee for those

I have received. It was inter-

esting to hear of thee & wish of J^r

Senior & Robinson I would if

you were the father of my

I sent thee by the letter,
as ~~the~~ ^{the} ~~letter~~ ^{letter} which I mentioned, I
and recede to think, by some
miscellaneous letters which I had written
I suppose they will give thee
I am sure, I trust that
thy own will be blessed, that
thy own religious life will be
deepened, W. R. is a very capable
young man, but he is young,
I never I know less of
but we were much blessed both

the little we saw of him,
his labors in America were
highly spoken of - I like the
labors of myself & colleagues
continue I am I trust, I tend
to the promotion of the great cause
of truth & righteous men whom
we seek, but which thou
laboring for thee, I do care
most to see that thy own
spiritual life may be gloriously
permeated, so that, which at least

ing to lead them to Christ,
thy own life & conversation
may show that if it be
heartfelt knowledge, I do
often earnestly pray that there
may be willing to be led & guided
by the Spirit of Christ, & thus
be strengthened to become
a diligent labourer in the Lord's
vineyard — In your labours
be that class of people whom
I suppose to be most subverting

wasting energies, the in-
fluence of Total Abstinence
from all Intoxicating Liquors
is a great means of curing
the Venereal & is highly to be
tried in this and every other
case of great importance to be
clear in this point ourselves,
It is painful to think how many
careless wretches have fallen
by this subtle thief of our
Souls energy —

We have had a remarkable
Aut. Day Summer, but
little rain has fallen
the last 3 months, till within
the last few days in some places
they have had several hundred
storms, so that we have only had
a few drops, but a whirlwind
the cloudy sky to have more
the gardens are very much
withering, the water has gone
on as well as we could - My

Dear Mother has been
rather better of late, she
feels, she has gone every
to meetings, once in the day, &
it is a great comfort to her
again to hear his name, telling
of the goodness of God, & earnestly
pleading with all the world his
name to be truly offered to
love & faith in which Jesus.
My beloved Sister has both the
heart very much on fire, & has

White said we had the lunch
week, but the people I hope
she is improving, I am getting
well, of course my hoodlum,
keeps me much at home, but
I get going regularly to meetings
at West Bank they are all nice.

That I may miss we are
wonderful old people, but I
feel we are more together, I have
heard that I was better late,
and he still keeps up his interest in

in the gentle I keep up a
large correspondence with
them - they like to wash
after tea, & have their hair
as do also George & William,
fairly - James yet continues
much of an invalid, tho' they
who she has been

Some weeks since
under medical care at E. C. C. C.
John Ford is well, & always
seems to find employ ment

Our school here is not
re-assembled - it seems strange
to think of Alsat & Co. & Co. being
the object looked at,

Madam! We have from
the accounts of Mrs. Bensen his
sincerely likely he will never
get back to England, his mother
was good to Milkman, the
soul is about a month ago

The two Holy ones get well
home & seem better -

We have all been deeply
sorrowful the unexpected
death of our much beloved
John Pease, he was only ill
about two weeks, & he had been
wh. apprehended & in the last days
before his death, which was
calm & beautiful he had already
subscribed to the Lord's service
& we cannot doubt he had entered
into everlasting rest with his
soul long & greatly beloved -

We have recently tried
several boats from Thomas &
Sarah June, who are both told
the former was very busy in
the ship yard - I like
the matter is better than when
you look west, our land to her
& better a great deal. Myself &
from us all believe me they
truly, alerted friends

Cher to Markhouse -
