My dear Love -

I am so glad to find you
wonder yourself must be. Arthur
is here and will return on Thursday
last evening we went to dine with Mr.
Power, and had a very pleasant visit
Miss Miss Power plays & sings most
delightfully - The eldest Miss Power I am
sorry to say we did not see she being
obliged to keep her room from the influenza
There were two nice young ladies - the
sons of Mr. Power - Arthur and a Major
Lester being present - Arthur was much
pleas'd with his visit - Sent a packet
of Plummer's Pills & will bring more
with me with the garrison - We
have

just come from Council - we
have got into the Estimator & I hope
tomorrow and next day will con-
clude our labors -

In Christ I can hardly say
how I should like the stone Pillar
to be built trifid I see the effect of the
Portico. I think however the will
do better be easier to finish at the top
but I shall be at home I have no
doubt by Thursday or Friday

I must close now

your very affectionate
husband
