

My dear Husband

I fear, by your last letter you are not quite so well, am sorry you did not get a letter on Friday but as we wrote on Friday hoped you received it you know we have very little news to tell our letters consisting of demands upon your purse & time in way of purchases Sarah thinks you need not get the fender like autumn nor the desk bureau like we buy a desk service I think I mentioned a few days for the drawing room I should like to know about the stove plate to consider whether it would be got as cheap & well made as in Lunenburg we inquired for the tree from Mr Worne but it had not arrived was your care upon Mr or Mrs Worne I think you ought to make one upon Mrs Worne of friendly signification upon Mrs Walter to apologize for Sarah's unwellness, having time to call with you and some greenhouse plants as soon as you can get them

Agulias & all the rest of the fine
names I should think they ^{you}
could afford a few you must
not forget Mr P Dunn - Guelder
more people mountain ash -
Lawrence & Lawrence's Stralsberg
Don Mr Belcher & Miss Dunn
talk of returning with you does
Mr Augustus Wilnot talk of visiting
us make my kind remembrance
to him & Mrs Wilnot & say I shall
be happy to see her at Providence
How long are you likely
to remain I read the examined
remarks on your communication
they seem still red hot with their
agitating meetings on that
side the island whilst in
Robert Town supplies of Cornish
are arriving - we have still
no rain but frosted fields
in the Sun rise & warm
sunshine mornings I hear
there has been a good deal
of rain towards the westward
to-day you like me you dine
at Mr Powers I suppose Mrs
did not think me rude

in not calling - I should not
enjoy up too much with
You must send me all the
news & if you can conveniently
send me a check for ten pounds
I can manage to pay Mr. Piers
having become treasurer since
you were away say £ 00 Boston
That you I am } 4 00 Cow
become quite mercantile } 1 00 Pig

I could not see Mr. Horner
branch candlesticks, as when
Sarah & I called they were at
M'Clannachans Mr. Horner was
better & as usual Mr. & Mrs. H.
were very glad to see us Mr. H.
would give us some milk
porter to warm us which
as she was just pouring out
when Mr. Bedford tapped at the door
& would call it dog nose & which
he seemed to relish much &
called to try to arrange to get
the Organ affair settled but could
not - Mr. & I went to church
yesterday it was Sacrament Sunday
Mr. seemed devout but did not keep
a consistent behaviour offwards
Your truly E. Leaf
